

# Animals of the Rainforest

by Ariana Wilkes

Birds chirping,  
Monkeys howling,  
Animals galore,  
Not everything you want to see,  
Is on the forest floor.  
Birds fly, way up high,  
Below the canopy's leaves  
They chirp and tweet and sing all day  
For as long they please.  
Monkeys sway and play and howl  
Under the canopy birds  
But as soon as they hear the jaguars growl,  
They head for their homes above the forest floor,  
Birds chirping,  
Monkeys howling,  
Animals galore!
