

The Best Part About Me

By: Gabe Cockrell

*The best part about me is my hands because my hands help me throw a football and catch it. My hands also help me write stories like the one i'm worcking on now called the "The Fairy Tale Games". My hands also help me when I eat food because then it will be very hard I try to eat food, if I didn't have hands I could starve. My hands also help me make ZANY shadow pupets. I think that my hands are amazing because my hands help me play the sports that I like like baseball, football, and basketball wich I play at my grandma's house. My hands also help me get ready for awsome days I have. I think that my hands are **AWESOME!***
